

Enterprise Kit Deployment

GJ Enterprise Kits typically go-live 8-10 weeks after a SOW is signed. The timeline depends on the application portfolio, delivery location and required testing.

Domestic (USA) Timeline

1. Launch Meeting usually occurs within 10 business days. We can speed things up if needed.
 2. May be extended to meet client-specific testing requirements (InfoSec)
 3. May be extended to meet end user testing needs
